

# The Fair Food Program transforms the lives of farmworkers.

## Safety

"Before the Fair Food Program, there were no bathroom breaks or shade. Now, everything is so much better."

## Dignity for Women

"Now I only work at Fair Food Program farms because the work environment is so much better in general, but particularly with the way women are treated. When we arrive home at the end of the day, we can hug our children happily, knowing that we didn't have to leave our dignity in the fields."

## Respect for All

"Here, you can work with dignity regardless of your education or color."

The Coalition of Immokalee Workers' Fair Food Program is a unique partnership among farmers, farmworkers and retail food companies that eliminates modern day slavery, sexual assault, verbal and physical abuse, systemic wage theft, exposure to pesticides and other dangerous conditions on participating farms.

**"This is the best workplace monitoring program" in the U.S.**

– *New York Times*

**"Must be considered as an international benchmark" for ending modern-day slavery**

– *UN Special Rapporteur on Human Trafficking*

**Among the 15 "most important social-impact success stories of the past century."**

– *Harvard Business Review*

**A "visionary strategy...with potential to transform workplace environments across the global supply chain"**

– *MacArthur Foundation*

# FAIR FOOD PROGRAM FARMWORKER TESTIMONY

*“I have been in the fields all my life, I have seen boys become men in the tomato fields. And now I also see that things are better, now we are not treated like dogs – I am grateful to people like you.”*

*“The work that the [Program] does makes you feel like you are not alone. I believe that many women now have the courage to speak up, and no longer stay silent.”*

*“At the Fair Food Program farms, it is beautiful. There is attention paid to how workers are doing. There is water. We have bathrooms and shade, and they pay the bonus to workers every week. What a difference!”*

*“In the past, we had to wake our son up at 4 a.m. to get him to a home daycare where he stayed until the daycare provider took him to school. Now, for the first time in the 10 years of my son’s life, my wife and I are able to eat breakfast with him and walk him to school.”*
